Week 11—Aug 23rd: Wrap Up

Meet at: Education Building

No photography outing, this week. This is our final opportunity to share images and give feedback on the program.

Classroom: Share images from weeks 9 & 10 (up to six per person)

ABOUT THIS PROGRAM

The weekly Photography Program began with the 2016 season as an idea for docents & locals to experience the park, although anyone is welcome to attend (but not recommended for children under 12).

Each week focuses on a different theme, and for 2017 we are expanding to include different areas of the park. The location where to meet at 9am is given for each Wednesday on this schedule.

Those who attend consecutive weeks have an opportunity to share a few images from the prior week after an outing. However, it is not necessary to attend every week to enjoy this program.

Notes:

- ◆ There are three days with longer photography periods and no classroom time.
- ◆ Be prepared for the possibility of getting wet at any location featuring by water.
- ◆ Essential items to bring include camera, drinking water, sunscreen, insect repellent, and maybe a tripod and a snack.
